Simple Songs for Growing Class Mindsets

## Teacher Talk...

What better way to instill the growth mindset than by singing songs? Growing mindsets early can set students up for lifelong learning! Our class loves singing songs and our Mindset Melodies bring our brains to the mic for class sing-alongs that they'll be humming for years to come. We wrote 20 Mindset Melodies which we use in our classroom all year long. We introduce one song at a time by using the class song posters, building the songs in our class pocket chart, rebuilding during centers time on our own song mats and just singing along as a class any chance we get! We find the more we sing the more we know and the lyrics of our songs carry into our mindsets while learning in other areas too. There is no better feeling as a teacher than to hear them singing these songs and applying the growth mindset concepts as they learn. We hope your class enjoys learning, singing, and applying Mindset Melodies in your classroom as much as ours have. Enjoy!

Attitude is everything I can't be positive Finding the good And being happy It's a choice for you and for me So, it's staying kind and humble. It's getting back up when you fall. So it's pos-i-tive attitude for us all!	Oh, if one way is not working, Try again. Try again!	The power of yet. Yet, yet The power of yet. The power of yet. I just can't do it! YET!	If you're proud and you know it, Clap your hands. If you're proud and you know it, Clap your hands. If you're proud and you know it, Clap your hands.	I've been making mistakes, But I'm not giving up. I've been making mistakes They help me think and grow I just can't do it yet. Can't give up on me. I will just keep trying I'll get it soon you'll see!
