

Dear Families,
We were introduced to "Pirate Math" when our grade level was given a copy of the program. They are excited about it and we are excited for them. We are excited to see how they do on their tests.

Let's Get Started
Preparation for **Pirate Math:**
1. Copy Parent Copy
2. Give Parent Copy to Parents
3. Give Parent Copy to Student

They're Ready!

Pirate Math!

Quick Program Overview

- Students take timed addition tests.
- Each time they complete a test successfully, they earn a "gold coin" for their Coin Board (use Avery dots or our pre-made coins).
- After successfully completing 5 tests, they earn **Pirate Booty** or **Chocolate Gold Coins**.
- If they do not successfully complete a test, they remain on that test until it is mastered.
- Pre-made flash cards can be sent home with student for practice.
- Students work at own pace, trying to better their own score.

Pirate Math Tests

There are 2 tests per page (A and B). Copy each page and cut down the middle. They are basically both the same, just the order is different. We like to give the student the opposite test if they need to retake it. Once a student successfully passes a test, they move on to the next one.

order of Tests:

x0 x1 x2 x3 x4 **x5**
x6 x7 x8 x9 **x10**

Mini-Mixed: x0,1,2 x3,4
x5,6 x7,8 **x9,10**

Mixed Tests:

1 2 3 4 **5**
6 7 8 9 **10**

○ = indicates reward/incentive test

Flash Cards

Copy each set of Flash Cards on colored construction paper. You may choose to pass them out when a student reaches a level (before they take the test) or after they don't pass it for the first time. Students look forward to getting to the next "color" flash cards.
