**INFORMATION**

There are also animals in the savanna. An animal that can live in the savanna is a lion.

Some of the animals in the savanna are lions, elephants, giraffes, zebras, and antelopes.

With very little rain, there is not enough water for the plants to grow. This means that there are not many trees or bushes in the savanna.

Many people visit the savanna to see the animals and learn about their habitats.

Some of the animals in the savanna are lions, elephants, giraffes, zebras, and antelopes.

The savanna has two seasons: dry and wet. The dry season lasts from June to September, and the wet season lasts from October to May.
